

November 2008, for immediate release

EuroCave's new 92 wine cabinet - encompassing up to the minute technology

French brand EuroCave simply won't settle for producing the world's best wine cabinet. The company's commitment to product innovation, encompassing the latest in technology, greatest features, highest capacity and aesthetic appeal, is unparalleled since it invented the first wine cabinet more than thirty years ago.

Their latest creation is the 92 Series.

The 92 Series boasts the following features:

- EuroCave's patented NeoFresh technology, providing a more uniform temperature distribution as well as the preservation of natural hygrometry.
- Low energy consumption making it one of the quietest wine cabinets on the market.
- Unique 'Main du sommelier' shelving which protects wine from vibration and provides the added ability to adjust to different bottle shapes.
- Ergonomic design with a capacity to store up to 211 bottles.
- A remote control, allowing you to ensure correct temperature and control humidity from anywhere in your home.
- Double glazed glass door, providing essential insulation and protection against ultra-violet light which is harmful to wine.
