

Floor-to-Ceiling Base Plate

FCF-BASE-K

The Floor-to-Ceiling Base Plate allows for custom Floor-to-Ceiling Frame installations requiring the cutting of a standard 5-foot tall section.

Floor-to-Ceiling Mounted Backer Bar

FCF-BACK-K

Take your wine collection off the wall. The Floor-to-Ceiling Backer Bar, when used in connection with a Floor-to-Ceiling Frame, allows for one-sided wine bottle installations against walls with mounting obstacles such as windows or fragile tile.
