

PLATINUM SPLIT H.E

220V Condensing Unit

(Available in Wall Mount or Fully Ducted)

FEATURES

- Suitable for most small to medium cellars.
- Evaporator is wall mounted (ductless) or can be ducted (8000 model only), allowing it to be concealed in the ceiling or bulkhead taking up no space in the cellar.
- Liquid bottle probe provides accurate measurement of temperature of wines stored in the cellar.
- Controller interface can be placed inside or outside of cellar.
- Condenser can be positioned up to 30m from the cellar and coating to protect against salt erosion.

Wall mounted system

**Dimensions not to scale. Concept only, refer to other images for grill appearance.*

Ducted system
